

Bürkert Solenoid Valves

Interactive 3D Catalogue of valve types

**Pivoted armature valve
Type 0330**

**Servo assisted solenoid
valve with piston
Type 0406**

**Servo assisted solenoid
valve with piston
Type 0407**

**Servo assisted solenoid
valve with diaphragm
Type 5281**

**Servo assisted
solenoid valve with
3/2-way pilot - Type 5282**

**Plunger-type solenoid
valve - Type 6013**

**Plunger-type solenoid
valve - Type 6014**

**Direct acting flipper
valve - Type 6144**

**2/2-way spring coupled
servo assisted solenoid
valve - Type 6213**

**Hard coupled servo
assisted solenoid valve
Type 6240**

**Direct acting rocker
valve - Type 6627**

Our solenoid valve experience is one of the main pillars of our success. You can bet on our ongoing, practically-oriented expansion of our competence for groundbreaking innovations. Reliable and safe shut off, releasing, dosing, distributing or mixing gases and fluids. Whether you need a single component or a complex system solution, we always focus on optimum process reliability, efficiency and economy.

To be able to use the 3D functionality of this interactive 3D product catalogue, you need a Adobe® Reader, at least version 8. Choose one of the valve types by left clicking the symbol, then the 3D document is opened.
