

Bürkert Process Valves

Interactive 3D Catalogue of actuator unit types

ELEMENT

CLASSIC

Our process valve experience is one of the main pillars of our success. You can bet on our ongoing, practically-oriented expansion of our competence for groundbreaking innovations. Reliable and safe shut off, releasing, dosing, distributing or mixing gases and fluids. Whether you need a single component or a complex system solution, we always focus on optimum process reliability, efficiency and economy.

To be able to use the 3D functionality of this interactive 3D product catalogue, you need a Adobe® Reader, at least version 8. Choose one of the valve types by left clicking the symbol, then the 3D document is opened.
